PLEASING RECEPTION

World's Fair Boomers Having a Good Time in Frankfurt.

A Heavy Bill Day in the House—The Gerrymander Bills Being Prepared.

THE LATEST FROM THE LEGISLATURE

Frankfort, Ky., Jan. 28.—The St. Louis World's Fair commissioners and boomers are being lavishly entertained here, and seem delighted to get back to old Kentucky.

This morning in the house there was another deluge of bills. The first bill presented was to make the birthday of General Robert E. Lee a legal holiday.

No one seems to object to the capitol appropriation, but many object to a bill that creates a board of nine commissioners at \$1,200 per year, who might remain in office for a number of years before the capitol was completed, or even before the foundations were laid.

It is necessary when public buildings are to be erected there shall be a building committee, or board of commissioners, to handle the funds and manage the contracts, but it is the prevailing idea that the Holland bill crosses the bridge before getting to it, and that all that is needed at present is a provision for the raising of the necessary funds.

There will probably be another bill drafted, with the objectionable features of the Holland bill eliminated, and there is still a fighting chance for such a measure to pass.

The Democrats are so largely in the majority that they are kept in continual good humor with everybody, and the Republicans are such a small minority that they have wisely adopted a "grin and bear it" policy, which they have so far carried out admirably.

The slating of committees left the Republicans with no representations on the redistricting committees, and, of course, the Democrats alone will be responsible for any changes that are made in the congressional, senatorial, judicial or legislative districts.

Republican members have poured in a bunch of reappointment bills, which have been referred to the redistricting committees, but they will, of course, meet an early death in the committee room, and from their ashes will rise reappointment bills formed by the Democratic committees.

A house bill by Parker of Laurel is to abolish the reward fund commission, and appropriate \$100,000 reward for the Goebel murderers.

Browning introduced a bill prohibiting drinking intoxicants on trains.

At noon a joint session heard speeches from the St. Louis delegation including Ex-Governor Crittenden, Gov. Francis, and others, and from Gov. Beckham, who said he would sign a world's fair bill with most liberal ink.

The bill offered in the lower house of the assembly to make Labor Day a legal holiday in Kentucky, being strongly urged by the labor organizations of Louisville and Covington, and will almost certainly be enacted into a law. The measure was presented by Representative Samuel W. Adams of Covington. It names the first Monday of September of each year as a legal public holiday.

The bill pending in the house to take the election of the custodian of public buildings out of the hands of the court of appeals and place it with the state board of sinking fund commissioners has developed a good crop of candidates for the place. The bill has already passed the senate, and its passage through the house is assured. Captain Ed Porter Tompkins will make a fight for re-election, and among the other prospective candidates are John M. Meloon of Calloway, of the auditor's office, and W. M. Lyon of Jessamine, now of the secretary of state's office.

WAS RELEASED.

FANNIE WILSON GETS OUT ON HER OWN RECOGNIZANCE.

Fannie Wilson, who has been in jail for the past several weeks for stealing \$280 from Frank Patterson of Central City, is out of jail on her own recognizance.

She filed a certificate with the court several days ago certifying that she is ill, and signed by Dr. Pendley, and the judge made the order this morning. She was released from custody this morning, but will have to appear before the court on the next regular term in April, to answer to the charge.

Ed Jones is now the only one of the three originals in the charge who still remains in jail, and he is a trusty.

THE WEATHER.

Cloudy tomorrow and tonight. Probably snow.

EXPOSITION AT MANILA

Movement Inaugurated By a Native Leader.

Chamber of Commerce Appeals For Admission of Chinese.

Manila, Jan. 28.—The public here, backed by army influence, is inclined to dispute Governor Taft's cabled interviews since his arrival in the United States concerning a reduction of the army by 15,000 men within a year, which would undoubtedly be the minimum strength of the American forces. The residents of Manila, however, are naturally influenced by the prolonged insurrection and mistreatment of the Chinese.

Felipe Buencamino, one of the directors of the federal party, is endeavoring to inaugurate an exposition of commerce, to be held next December. He relies mainly upon exhibits from the United States, China, Japan, Siam and Borneo. The merchants of Manila are inclined to think that this exhibition should be delayed another year, but if sufficient support is promised the United States Philippine commission will be asked to assist in carrying out the idea.

The American chamber of commerce here has formulated an appeal to Congress in which it earnestly prays for the enactment of laws allowing Chinese to enter the Philippine islands under such restrictions as the United States Philippine commission may enact. The present restrictive law concerning immigration, continues this appeal, is of no benefit to the Filipinos. Chinese, it is admitted, would not enter into competition with local labor, and their entry into the islands is imperatively needed, as the tobacco, hemp and sugar lands of the archipelago are only partially cultivated. Without this immigration the country can not be properly developed. Building in Manila has been badly retarded because of this lack of labor, and for these reasons the American chamber of commerce, composed entirely of American citizens, representing commercial interests, respectfully prays for immediate action in the matter.

ILLINOIS COAL LINES

IT IS REPORTED THE CHICAGO AND EASTERN ILLINOIS WILL TAKE A HAND.

Charlestown, Ill., Jan. 28.—A most serious condition has been found to exist in the attempt to place the Illinois coal fields under the control of the great corporation that controls the coal interests in Indiana, West Virginia and Ohio. The Illinois Central has carried in the past 27 per cent of the coal of this state, and through its allied interests has carried over 50 per cent of the output. About ten days ago a demand was made for some agreement that this carrying revenue in the future would not be hampered by the elimination of competition. To this only an elusive agreement was proposed, whereupon the road refused to deal longer with the J. Pierpont Morgan interest, and suggested that the Harman people would be accepted by the negotiations.

It is said that the Chicago and Eastern Illinois railroad, which is controlled by the Morgan syndicate, may endeavor to enlarge its coal carrying at the expense of the other coal roads of the state. The present contest may delay the plans of the combine for several months, unless the railroad interests of the state are amply protected in their revenue.

ALL SOULS NOT IMMORTAL.

PARKHURST COMES OUT STRONGLY AGAINST POPULAR BELIEF.

New York, Jan. 28.—In the second of his sermons on "Immortality," Rev. Dr. Charles H. Parkhurst in the Madison Square Presbyterian church came out strongly against the popular evangelical belief that all souls are immortal. He expressly gave it as his opinion that the Scriptures do not teach immortality of a soul from death, and that the soul must be taken care of in this life, else it will perish utterly, either at the death of the body or after a longer or shorter period of life beyond the grave.

To all orthodox interpreters of the Presbyterian creed it always has been assured that the soul of the wicked or the just man alike was immortal—the one for everlasting punishment, the other for everlasting happiness.

RETAIL GROCERS MEET

Milwaukee, Jan. 28.—About 350 retail grocers from all parts of the country assembled in Milwaukee today at the fifth annual convention of the National Association of Retail Grocers.

A BOLD ASSAULT

Mrs. Jerry Kimbrow Choked and Robbed in Broad Daylight.

A Negro Who Had Asked Her For Something to Eat Lay in Wait For Her.

OFFICERS VAIN SEARCH FOR HIM

A negro entered the residence of Mrs. Jerry Kimbrow on Jones street this morning, and in broad daylight choked her and compelled her to give him 50 cents, all the change she had in the house at the time.

The negro first came to the back door, just as Mrs. Kimbrow was going out after a bucket of coal, and asked her for a "hand out." She informed him that she had nothing in the house for him, and he then apparently went away, going around the house. Mrs. Kimbrow secured the coal and returned to the house, to find the negro on the bed. He jumped up when she came into the room, and grasping her about the throat, began to choke her. He threatened to kill her if she screamed, and, being badly frightened, she was then made to give the money to the intruder. He made his escape before officers could be summoned. Mrs. Kimbrow has a good description of the man, and officers are on the lookout for him. Mrs. Kimbrow is the wife of a well known I. C. shop employee, and was almost almost prostrated by the bold robber.

Officer Tom Orr searched quite a while for the negro, but could find no trace of him. There has been a great deal of excitement over the affair in the neighborhood.

KILLED IN CHURCH

AT EAGLE MILLS, O. JOSEPH COX SHOTS HOWARD RATCLIFF, WHO WAS AT CHURCH WITH COX'S SISTER.

Chillicothe, O., Jan. 28.—Joseph Cox shot and killed Howard Ratcliff at church Sunday at Eagle Mills, fifteen miles east of here. Cox had been paying attention to Ratcliff's sister, and Ratcliff strongly objected.

Cox took Miss Ratcliff to church last night, and when Ratcliff saw them together in the church he at once assaulted Cox, who drew a weapon and fired, the ball passing through Ratcliff's body. He fell in the aisle, amid the shrieks of terrified women.

Both men are of respectable families, and both are school teachers. Ratcliff married a sister of Cox. Cox was arrested and taken to McArthur today.

JUST TOOK SAFE

DARING HOLD UP ON THE SOUTHERN RAILWAY.

Charleston, S. C., Jan. 28.—Meager details of a daring hold-up on the Southern railway near Branchville, which occurred last evening, were received here tonight. As a north-bound passenger train from Charleston crossed two miles from Branchville, the engineer, fireman and conductor were compelled by several masked men, at the point of pistols to stop. The robbers overpowered the passengers, and uncoupled the engine, express and baggage car from the remainder of the train, and ran two miles up the road, where they loaded the two iron express safes upon a two-horse wagon and drove away. The express messenger was ordered by the robbers to unlock the safe, but declared that he did not know the combination. The leader is supposed to be the notorious Barlow Warren, who, it is said, robbed the express car within a few miles of Branchville in 1890, and afterwards murdered the chief witness against him. He later escaped from jail, and has recently been reported to be at large in Orangeburg county.

HOWARD CASE.

THE ARGUMENTS WILL NOT BE CONCLUDED UNTIL TOMORROW.

Frankfort, Jan. 28.—Tom Campbell continued his speech for the prosecution in the Jim Howard case this morning, speaking along the usual lines and concluding at noon. Violet concludes for the defense this afternoon, and Franklin begins for the commonwealth and concludes in the morning.

IS GETTING MANY RECRUITS.

Corporal Shackelford, the recruiting officer, has been busy today examining colored applicants for service in the regular army.

He received notice that he could enlist them, and since the notice was published by the press, the colored applicants have been flocking in to the officer in large numbers. He will probably get half a dozen before his time is up for this district.

EIGHT ARE BLOWN TO ATOMS

And Over One Hundred Injured In a Terrific Explosion in New York.

New York, Jan. 28.—The reserve supply of high explosives stored at the Park avenue shaft of the rapid transit tunnel, now in course of construction, blew up yesterday afternoon. The giant blast killed six persons, injured a hundred others and seriously damaged all the property reached by the flying debris and the vibration of the shock.

The irregular square formed by the Murray Hill hotel on the west, the Manhattan Eye and Ear Hospital and the Grand Central hotel on the east and the Grand Central railroad station on the north was the scene of the explosion. The building named sustained the greatest damage, but the area affected extended for several blocks in the four directions.

The killed—Adams, Cyrus, cigar man at the Murray Hill hotel; Carr, James, 32 years, a waiter at the Murray Hill hotel; Hines, Lawrence, 28, of Ansonia, Conn.; Holbrook, J. Roderick, of Nelson, G. C.; Thompson, Ralph, assistant engineer. All outside reports seem to agree as to his death, but his body is not reached by the police or by the hospitals. Tabbs, Thomas, master mechanic for Contractor J. A. Shaler.

The list of injured is an exceedingly long one, but most of those in it have only cuts caused by flying glass.

The cause of the explosion and the quantity of explosives that blew up are not definitely known. Several causes have been advanced. One was that a fire started under the powder room, and that Master Mechanic William Tabbs lost his life in a desperate

COMING CHARITY CONCERT

At Cumberland Presbyterian Church on Friday, Feb. 7.

A Musical Event That Promises to Be a Treat.

It is to be hoped that everyone in the city is keeping in mind the Charity Concert to be given by the Musical club under the auspices of the Civic Federation, at the Cumberland Presbyterian church on Friday evening, February 7th, and will make no other arrangements for that evening.

The concert will be one of the most delightful musical treats ever given in the city. The program contains the names of celebrities and favorites in both the professional and amateur ranks of Paducah's musical world, and the rehearsals are now going on. But apart from this, the cause should attract the crowd. The great needs of the poor are known to the women of the Civic Federation, who are brought into contact with them day after day, and such weather as this is emphasizing such needs terribly. To answer such calls without money is a hollow mockery. The Charity Concert will help meet any deficit in the treasury, and it is a form of pleasure to which every one can give a most hearty support. It is expected that all will enthusiastically like to make it a financial success. Tickets can be had from any member of the Civic Federation, and are only 25 cents.

ALMOST COMPLETED

The Cadiz Railroad is Now a Pleasing Reality.

It Was Begun One Year Ago, and Will Be Finished This Week.

TRAINS ARE ALREADY RUNNING

The Cadiz railroad, which is twelve miles long and extends from Gracely, in Christian county, to the pretty capital of Trigg, will be completed this week. All the work is done but laying the rails about one mile, and in a few days trains will be running regularly over the line.

The road is the realization of the hopes of years. The memory of the oldest citizen runneth not back to a time when the people of Trigg county were not indulging in railroad talk and grasping at all straws that promoters from time to time threw out. In 1886 the projectors of the Ohio Valley railroad submitted a proposition to the citizens of Cadiz, promising for \$40,000 to extend their line to that town and thence to Hopkinsville. The district which was most to be benefited put the question to a vote. Owing to local conditions the opposition was bitter and the election was exciting. The tax was voted on the district by a majority of 202. That night was the wildest in the history of Cadiz. The celebrators painted "202" on nearly everything in town. The front doors of residences and business houses, the sides of barns, sidewalks and pavements and even dogs, horses, cows and mules were adorned with the victorious numbers. The joy of the inhabitants, however, was short lived for the O. V. pushed on to Hopkinsville, not reaching nearer than ten miles of Cadiz.

Early in February of last year books were opened for subscriptions to stock and in a short time \$35,000 was raised. A board of directors was chosen which elected the following officers: W. Cleland White, president; Dan L. Grinter, vice president; Edward R. Street, treasurer; John D. Shaw, secretary; B. Armitage, general manager.

On April 22nd, at Cadiz, dirt for the road was broken with appropriate exercises. Despite a heavy rain, a great crowd was present. The first shovel of soil was turned by Mrs. Nancy Wilford, the oldest white citizen of Cadiz. Eloquent addresses were delivered by Judge James B. Garnett, Dr. J. W. Crenshaw and others.

November 19, at a called meeting of the stockholders, it was decided to mortgage the property for an amount not to exceed \$20,000, in order to raise sufficient means to complete and equip the road. The money was secured from the Louisville Fidelity and Safety Deposit company, which executed twenty negotiable bonds for \$1,000 each, with 6 per cent interest, payable semi annually. The property included consisted of the roadbed, rolling stock and terminals. The middle of November the work of laying the track was begun. Locomotive No. 10 arrived at Gracely and has been used in the work of construction. Everything indicated the completion of the road by Christmas, but several weeks of zero weather and deep snow retarded the work. When good weather set in again construction was resumed, and during the first week in January a train began running on schedule time between Gracely and Montgomery.

NASHVILLE'S POSTMASTER IS REAPPOINTED, BUT IS CAUTIONED TO VIOLATE NO CIVIL SERVICE RULES.

Washington, Jan. 28.—The President has decided on the reappointment of Postmaster A. E. Willis of Nashville, Tenn., but wrote the postmaster a letter cautioning him against any violation of the civil service laws in his office. This action follows a report which the civil service commission has just made to the President of investigation of charges against the postmaster of a political nature. The report holds that Postmaster Willis committed technical violations of the civil service law in giving \$150 to another officer for political purposes, and in causing the collection of certain sums from subordinates to reimburse him. The report also holds that there was no coercion in the case.

HANDS BADLY MASHED

Accident at the Illinois Central Blacksmith Shop.

Mr. John Chambers Has a Hip Dislocated—Other Accidents.

Mr. John Hale of Thirteenth and Ohio streets, the well known I. C. blacksmith, was seriously injured this morning about 8 o'clock while moving a big 1,000-pound driving axle to the interior of the blacksmith shop. Mr. Hale and several other employees of that department had the big axle on a truck, and when the door of the shop was reached the end of the axle struck the door sill and rolled off the truck. In its descent it caught Mr. Hale's hands—he had been holding it in place—and badly crushed both. His left hand was not so badly injured as his right, which was broken in every knuckle and joint. It is believed, however, that he will not lose the use of the members. He was taken to the hospital, where his injuries were dressed by Dr. Dillon.

A street car struck Mr. Theodore Courcier's buggy at Sixth and Clark streets yesterday afternoon late, and demolished it, throwing Mr. Courcier out. Fortunately, however, he escaped serious injury.

Emmet Tilford, a railroad man, had a leg cut off yesterday while trying to "hop" a freight train on the Illinois Central at Horse Branch. He resides at Horse Branch, and is a member of the section gang.

Mr. Robert Chambers, a well known man of the county, slipped and fell yesterday from his porch and sustained a dislocation of the hip. Owing to his age, it will be quite a while before he gets out again.

Mr. A. C. Shelton, the carpenter contractor, cut his left hand badly yesterday afternoon while at work making a joint. His knife slipped and struck the back of the hand inflicting a painful wound. Dr. Troutman dressed the injury.

Little Miss Goldie Sellers, of Fourth and Tennessee streets, the eight year old daughter of Mr. Sellers, of the Rhodes-Burford furniture store, fell down while playing at school yesterday afternoon and dislocated her left elbow. Dr. Coyle reset the elbow and the little girl was able to return to school this morning.

THE PUBLIC SCHOOLS

Supt. Hatfield Decides to Relieve Mid-Term Promotions.

New Term Begins Monday and Serving Will Be Put Higher Up in the Grade.

SUPT. HATFIELD'S NEW INVENTION

For the past several years there has been little attention paid to the promotion of pupils in the local schools at the end of the first term. This year, however, if a pupil is deserving and has the average he will be promoted to the lowest division of the higher grade. On account of the suddenness and tendency of the pupil to back out somewhat, the matter of promotion was dropped but in the past year there have been several deserving pupils who have been promoted and who proved successful in the higher grade and the management thus encouraged to again bring the rule into play. All the records of every pupil in the schools will be examined by Supt. Hatfield this week and passed on. This is not an enviable task and will require all the time that can be given for the work. Monday will be the new term, which lasts for months.

Supt. Hatfield has just completed a record book for all schools, which he will have copyrighted as soon as he can make out the necessary papers. This is an article that is not so frequently improved on as there are record books manufactured by many firms and having many different forms of keeping the averages and the record of the pupils. Prof. Hatfield's book is possibly the most complete on the market and will accommodate over one hundred names. It is a monthly record book, for keeping the record of every pupil. There is a space for the pupil's name and the studies, department and attendance for every month. Then there is a space for the average of the first and second term and then for the average of the two terms, the whole year. Every study is graded in the book by the month and an average taken from this and placed in the space for the term's work. This simplifies the record keeping, and guards against confusion that has heretofore existed. The book affords space for the average of eight pupils and can be used for two years in the ordinary grade. The books that have been in use here cost the schools 40 cents a piece and are made in Cincinnati and the book patented by Prof. Hatfield is made in Paducah and costs only 30 cents.

If he is successful in his article, there is a neat little profit attached and Prof. Hatfield may make a good thing out of it.

—"Alvin Joslin," the best of all

the rural plays, will be the attraction

at The Kentucky Thursday night.

Alvin Joslin, as is well known, was

the first of all the dramas of this kind,

and has been the most successful be-

cause it has the most merit. It is in

four acts, and is full of the most lu-

dicious situations and exciting climaxes.

All the interest and fun is caused by

Alvin Joslin, an old farmer, as given

in the hills of Vermont, from which

he came to visit New York. Clever

up-to-date specialties will be in-

troduced during the play. Popular prices,

15 to 50c. Seats on sale Thursday.

—Gorton's Minstrels, coming to

The Kentucky tomorrow night, are

new in everything, and in keeping

with the times. The music of the

bones and tambourines will awaken

in the minds of many old theatre

goers the memories of the early days

of minstrelsy, when crowds flocked to

see the "plantation singers," and re-

turned home to talk of what they had

seen. This is the one show of min-

strelsy that has cast aside all old,

wornout features, and gives to the

public a pure, wholesome, up-to-date

show. New faces, new acts, new

songs, dances and music.

Don't miss the great street parade

and band concert at 4 p. m. Best in

America. Popular prices. Seats now

on sale.

CIRCUIT COURT.

THE FLOYD DAMAGE SUIT STILL

ON TRIAL.

At press time the William Floyd

case against the Paducah Street Rail-

way Co. was still on trial, but will be

finished today. Floyd, who is par-

tially deaf, asks for \$100 damages for

being injured near Rowlandtown one

year ago. While walking on the track

the car struck him and knocked him

several feet. He was bruised and

otherwise injured, but not seriously.

The case will be given to the jury

about three o'clock this afternoon.

Hal Corbett and T. E. Moss filed a

suit in circuit court against F. O.

Roberts to recover a claim of \$183.33.

In the case of John Boike against

the U. S. Benevolent and Sick Soci-

ety the plaintiff filed reasons and mo-

tion for a new trial.

is warranted to be the best offered to

the public.

WANTS OUT.

ALLEGED PENSION LAW VIOL-

ATOR TRYING TO GET OUT.

James Woodward, colored, the pen-

sion agent arrested several weeks ago

for an alleged pension fraud, has ap-

plied for release from the jail. He is

under a \$500 bond, but nothing has

been done in the matter. If his bond

is examined and found to be secure,

then he will probably be released im-

mediately. It is understood that he

has been trying to get out for some

time, but has not been able to give

good enough bond.

Does your mirror reflect clear,

white teeth and sound gums? If not,

then use Jennelle's tooth powder.
